June 2015 Edition

The latest news from the City of White Plains.

Park White Plains

Now that the seasons have changed and the weather has become more agreeable, more and more people are flocking to downtown White Plains to take advantage of all our great shops and restaurants. The downtown area is a fun and lively place to be, and just in time for the nice weather, parking in White Plains has become hassle free thanks to *ParkWhitePlains*.

ParkWhitePlains is the City's new mobile parking app created to help you find parking, pay for parking and save on parking. You won't find an app like this anywhere else in Westchester! If you're driving around and don't know where to park, *ParkWhitePlains* can help you find the city garage or lot that is closest to where you need to go. With *ParkWhitePlains* there's no more waiting in line to pay, just skip it and pay on your phone. Once you're out and about, you won't have to worry if you still have time left on the meter because *ParkWhitePlains* will alert you when your parking session is about to expire. If you're running low on time, you can simply add more straight from the app. If you're looking to park for less, *ParkWhitePlains* can help with that too! The app will show you which merchants are offering to validate parking. After making a purchase at a participating location, you'll receive a

unique code. Enter this code into the app and the discount offered by the merchant will be applied to your parking session.

So if you want to do parking the easy way, go to the App Store or Google Play and download *ParkWhitePlains* for free. Then, simply enter your name, email address or mobile number, add a method of payment, and you're ready to go. Don't have a smartphone? Don't worry! Just visit parkwhiteplains.com to sign up, and then once you've parked call 914-422-8222 to pay over the phone.
